How do you define quality of life?

The definition of quality of life is different for everyone, but the main element is our ability to enjoy all that life has to offer and to pursue a life full of meaning and purpose.

Other elements at the center of quality of life:

- Physical Health
- Mental Health
- Stability
- Personal Growth
- Community Involvement
- Happiness
- Meaning
- Relationships
- Activity
- Spirituality

Wherever you are in the spectrum of health of quality living, start looking at what you can do to not only maintain your current status but to also improve it. Having the ability to make choices about what you want to do with your time will shape your quality of life.

Your EAP can help!
